

Activity for 31st May

Do the best you can only using 1 packet of vanilla wafer biscuits (and a little icing if required) to create a replica of Solomon's Temple. You can break some of the biscuits if you think it will help.

It will be *really* tricky, but that's ok. **Have fun** and don't worry about what you can't replicate. (If I made it, it would look more like a wafer stack than anything). You can use a piping bag with a little yellow coloured icing if you want the detail. Be sure to share it when you are ready to eat it up!

Below is a picture of what the temple would look like on the outside.
